About the Company

Arrow Coders Software Solutions Pvt. Ltd.. is a technology-driven digital product development company specializing in building scalable, secure, and user-centric software solutions. We help startups, SMEs, and enterprises transform their ideas into high-impact digital products with speed, precision, and long-term scalability.

With strong expertise across **Mobile application development (Android & iOS)** , **web platforms** , **cloud-ready backend systems** , and **digital product strategy** , Arrow Coders delivers end-to-end solutions--from ideation and UI/UX design to development, deployment, and post-launch support.

Our team follows **Agile and industry-best engineering practices** , ensuring transparency, timely delivery, and high-quality outcomes at every stage of the project lifecycle. We focus not just on building software, but on creating **business-ready products** that are reliable, future-proof, and aligned with market needs.

At Arrow Coders, we believe in long-term partnerships. Our approach combines technical excellence, strategic thinking, and proactive communication to ensure a seamless development experience for our clients--without unnecessary complexity or operational hassles.

Delivered Projects

Below are some of the notable projects successfully delivered by our team:

Fijo India - Local Service Platform

A multi-service local marketplace platform connecting users with nearby service providers. The solution includes service discovery, booking workflows, user management, and an admin control system.

Luvly - Dating Application

A modern dating and social networking application featuring secure authentication, profile discovery, matching logic, real-time interactions, and scalable backend infrastructure.

HireNest - Job Portal

A recruitment platform connecting employers and job seekers with features such as job posting, candidate profiles, application tracking, and admin-level management.

Eatery Exchange - Online Food Business Exchange Platform

A unique online exchange platform that enables users to **buy and sell food businesses** , including restaurants, cafés, cloud kitchens, and related assets. The platform acts as a secure bridge between buyers and sellers, offering structured listings, controlled contact access, in-app communication, and administrative oversight.

GROCERY APPLICATION

ADMIN PANEL & BACKEND DEVELOPMENT PROPOSAL

Project Overview

Arrow Coders proposes the development of a robust, scalable, and enterprise-grade Grocery Management Admin Panel and Backend System designed to streamline grocery business operations, inventory management, order processing, delivery management, customer administration, reporting, and business analytics.

The solution will be developed using:

- **Frontend Admin Panel:** React.js
- **Backend APIs:** Node.js (Express.js)
- **Database:** MongoDB
- **Authentication & Security:** JWT, Role-Based Access Control (RBAC)
- **Cloud & Deployment:** Client Preferred Infrastructure
- **RESTful API Architecture**
- **Scalable Modular Architecture**

This proposal covers the complete Admin Portal and Backend APIs required to manage grocery operations efficiently.

1. ADMIN DASHBOARD & BUSINESS ANALYTICS

A centralized dashboard providing real-time business insights and operational monitoring.

Sales Analytics

- Daily Sales Reports
- Weekly Sales Reports
- Monthly Sales Reports
- Yearly Sales Reports
- Custom Date Range Analytics

Revenue Analytics

- Revenue Overview
- Revenue by Payment Method

- Revenue by Category
- Revenue by Product
- Revenue Trend Analysis

Business Statistics

- Total Customers
- Active Customers
- New Registrations
- Total Products
- Categories Count
- Brands Count
- Delivery Personnel Count

Order Analytics

- Total Orders
- Cash on Delivery Orders
- Online Payment Orders
- Pending Orders
- Processing Orders
- Completed Orders
- Cancelled Orders
- Returned Orders

Operational Monitoring

- Latest Orders
- Top Selling Products
- Top Selling Categories
- Recent Customers
- Low Stock Alerts

- Inventory Valuation
- Delivery Status Overview
- Delivery Performance Metrics

2. ORDER MANAGEMENT MODULE

Comprehensive order lifecycle management from placement to completion.

Order Management Features

- View All Orders
- Order Search & Filtering
- Order Details Management
- Order Status Updates
- Order Timeline Tracking
- Delivery Assignment
- Invoice Generation
- Bulk Order Processing
- Order Cancellation Management
- Return Management

Advanced Filters

- Order ID
- Customer Name
- Mobile Number
- Payment Type
- Order Status
- Date Range

Smart Operations

- Delivery Delay Notifications
- Order Tracking Logs

- Activity History

3. CATEGORY MANAGEMENT

Centralized management of product categories and organization structure.

Features

- Main Category Management
- Sub-Category Management
- Category Sorting
- Category Visibility Controls
- Category Banner Management
- Featured Categories
- Category Performance Reports

Example Categories

- Fruits
- Vegetables
- Grocery
- Dairy Products
- Beverages
- Snacks
- Household Essentials
- Personal Care

4. PRODUCT & INVENTORY MANAGEMENT

Advanced inventory control system for efficient stock management.

Product Management

- Product Creation & Editing
- Product Variants Management
- Product Images Management

- Product Availability Controls
- Product Visibility Controls
- Product Status Management

Inventory Management

- Inventory Tracking
- Stock Updates
- Low Stock Alerts
- Product Search & Filters
- Product Expiry Management
- Brand Management

Additional Features

- Manual Order Creation
- Manual Sales Entry
- Stock Adjustment Management
- Product Sorting & Prioritization

5. STORE BILLING MANAGEMENT

A complete Point of Sale (POS) and billing system designed for walk-in customers, in-store purchases, and inventory synchronization.

Billing Features

- Fast POS Billing Interface
- Barcode Scanner Integration
- Product Search by Name, SKU, or Barcode
- Quick Add to Cart
- Quantity & Weight-Based Billing
- Tax Calculation (GST Ready)
- Split Payment Support

- Cash, UPI, Card & Wallet Payments
- Invoice Generation & Printing
- Thermal Printer Support

Billing Operations

- Hold Bill / Resume Bill
- Bill Cancellation
- Return & Refund Processing
- Partial Return Handling
- Manual Billing Entries

Cash Counter Management

- Daily Cash Opening Balance
- Cash Closing Reports
- Shift-wise Billing Reports
- Cash Collection Tracking
- Cash Difference Reports

Inventory Integration

- Automatic Stock Deduction After Billing
- Real-Time Inventory Updates
- Low Stock Notifications
- Product Availability Validation

Billing Reports

- Daily Billing Reports
- Counter-wise Sales Reports
- Cash Collection Reports
- GST Reports
- Product-wise Sales Reports
- Profit & Margin Reports

- Refund & Return Reports

6. PROMOTIONS & BANNER MANAGEMENT

Marketing management system for offers and promotions.

Features

- Homepage Banner Management
- Promotional Banner Management
- Offer Campaign Management
- Seasonal Campaigns
- Featured Product Promotions
- Category Promotions

7. DELIVERY MANAGEMENT

Centralized delivery operations management.

Delivery Operations

- Delivery Personnel Management
- Order Assignment
- Delivery Status Tracking
- Delivery Performance Reports

Delivery Configuration

- Distance-Based Delivery Charges
- Dynamic Delivery Fee Management

Delivery Compensation Settings

- Fixed Salary Configuration
- Per Order Commission Settings
- Bonus Management
- Incentive Management

8. DELIVERY EXECUTIVE MANAGEMENT

Dedicated management system for delivery staff.

Features

- Assigned Orders
- Completed Deliveries
- Earnings Tracking
- Daily Reports
- Weekly Reports
- Monthly Reports
- Performance Monitoring

Reporting

- Cash Collection Reports
- Online Payment Reports
- Delivery Completion Reports
- Executive Performance Reports
-

9. CUSTOMER MANAGEMENT

Complete customer administration module.

Features

- Customer Listing
- Customer Profile Management
- Customer Search
- Customer Activity Monitoring
- Address Management
- Customer Order History
- Account Status Management
- Block/Unblock Customers

Insights

- Purchase History
- Recent Activity Tracking

10. REPORTING & ANALYTICS

Comprehensive business reporting system.

Sales Reports

- Daily Sales
- Weekly Sales
- Monthly Sales
- Yearly Sales

Order Reports

- Order Summary Reports
- Payment Reports
- Cancellation Reports
- Return Reports

Delivery Reports

- Delivery Performance Reports
- Delivery Executive Reports
- Earnings Reports

Inventory Reports

- Product Sales Reports
- Category Sales Reports
- Inventory Reports
- Low Stock Reports

Export Features

- Excel Export

- Date-Based Exports
- Filter-Based Exports

11. NOTIFICATION MANAGEMENT

Cenetralized notification and communication management.

Features

- Order Notifications
- Inventory Alerts
- Promotional Notifications
- Offer Notifications
- System Notifications
- Customer Communication Logs

12. ADMINISTRATION & SECURITY

Enterprise-grade security and administration controls.

User Roles & Permissions

- Admin
- Contributor

Security Features

- Secure Authentication
- Audit Logs
- Activity Tracking

System Features

- Database Optimization
- API Security
- Scalable Architecture
- Performance Optimization
- Backup Ready Infrastructure

13. GST & HSN MANAGEMENT SYSTEM

Features Included

- HSN Code Management
- GST Percentage Configuration
- GST-wise Product Mapping
- GST Calculation on Orders
- Tax Breakdown in Invoices
- GST Reports Generation
- HSN-wise Sales Reports
- Automatic GST Calculation for Billing
- Support for Multiple Tax Slabs

14. ROLE-BASED ACCESS MANAGEMENT

Admin Access

- Full System Access
- Dashboard Access
- Product Management
- Inventory Management
- Order Management
- Reports & Analytics
- User Management
- Delivery Management
- Notification Management
- Revenue & Expense Management
- GST & HSN Management
- Settings & Permissions

Investor Access

- View-Only Dashboard Access
- Sales Analytics View
- Revenue Reports View
- Order Statistics View
- Inventory Reports View
- Download Reports Access
- No Edit/Delete Permissions
- No System Settings Access
- No User Management Access
- No Financial Modification Access

15. MANUAL EXPENSE & REVENUE MANAGEMENT

Features Included

- Manual Expense Entry
- Daily Expense Tracking
- Monthly Expense Tracking
- Staff Salary Entry
- Transportation Expense Entry
- Miscellaneous Expense Entry
- Revenue Calculation Dashboard
- Profit & Loss Overview
- Expense-wise Reports
- Date-wise Revenue Reports
- Manual Income Entry Support
- Net Profit Analytics

Revenue Sharing & Profit Calculation

- Admin Profit Percentage Calculation
- Investor Profit Percentage Calculation
- Automatic Revenue Split Calculation
- Monthly Profit Distribution Reports
- Investor Earnings Overview
- Admin Earnings Overview
- Net Revenue After Expenses Calculation
- Percentage-wise Revenue Analytics

TECHNICAL DELIVERABLES

React Admin Panel

- Responsive Admin Dashboard
- Role-Based Access
- Reports & Analytics
- Management Modules

Node.js Backend

- APi Management

Database

- MongoDB Database Design
- Data Relationships
- Optimized Collections
- Indexing Strategy

PROJECT TIMELINE

Estimated Development Duration: 40 Working Days

PROJECT COST

Grocery Admin Panel + Backend Development

Total Cost: Rs.1,80,000/-

Note: GST excluded.
